90/10 Business *Improvement* Techniques NVQ LEVEL 2 and 3

Funded by Train to Gain

Why 90/10?

This simply means:

- 90% practical work
- 10% work-based learning

No attendance at college!
'Work-based' means we come to you!

Benefits

For employers the programme can:

- **Improve business performance**
- **Maximise profit and revenue**

For employees the programme can:

- **Provide evidence of ability to do a particular job**
- **Improve career development/promotion**
- **Provide a nationally recognised qualification**

What is an NVQ?

This National Vocational Qualification programme focuses on engaging the workforce with the practicalities of implementing internationally recognised business improvement techniques.

Content

The programme content can be tailored to suit the needs of your company. The objective is to create an understanding of modern management tools, and implement techniques which will improve the competitive edge of the business and drive profitability.

How is it achieved?

Through a combination of work-based training, practical hands-on support, and external assessment over a period of up to 9 months.

Participants on the programme will be supported by highly experienced practitioners. The participants will implement changes and build a portfolio of evidence that can be assessed and qualify them for the award of an NVQ in Business Improvement Techniques to either level 2 or 3.

Awarded by

EMTA Awards Limited (EAL) is the leading UK awarding body for National Vocational Qualifications (NVQs). EAL is a sister company to SEMTA (Sector Skills Council for Science, Engineering and Manufacturing Technologies).

Warwick *Management* Consultants Ltd

Cost

Cost to the organisation is minimal other than a small registration fee. If your organisation has less than 50 employees then you may be eligible for **Wage Cost Compensation**, i.e., the time your employees spend with an assessor is reclaimable.

Programme Managers

Warwick Management Consultants Ltd is an EAL Approved Assessment Centre for this NVQ Programme. We therefore work to the criteria and codes of practice laid down by the Qualifications and Curriculum Authority.

For more information and how to register for the next programme, please contact us on:

02476 247267

and arrange for a no obligation visit from one of our experts who will explain how you can become involved in this innovative initiative.
